Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ALBERT, A. The transformation of purines into pteridines x

ALDRIDGE, W. N. Some esterases of the rat 692

AMOS, H. & COHEN, G. N. Amino acid utilization in bacterial growth. 2. A study of threonine-isoleucine relationships in mutants of *Escherichia coli* 338

ANNISON, E. F. Some observations on volatile fatty acids in the sheep's rumen 400

ANNISON, E. F. & PENNINGTON, R. J. The metabolism of short-chain fatty acids in the sheep. 3. Formic, *n*-valeric and some branched-chain acids 685

ANSELL, G. B. & RICHTER, D. A note on the free amino acid content of rat brain 70

APPLEBY, J. I., GIBSON, G., NORYMBERSKI, J. K. & STUBBS, R. D. The use of sodium borohydride in the determination of 17-hydroxylated corticosteroids xiv

ARNSTEIN, H. R. V. & GRANT, P. T. The biosynthesis of penicillin. 1. The incorporation of some amino acids into penicillin 353

ARNSTEIN, H. R. V. & GRANT, P. T. The biosynthesis of penicillin. 2. The incorporation of cystine into penicillin 360

ASHBY, D. R. *see* KODICEK, E. xii, xiii

ASHTON, G. C. *see* HOCKENHULL, D. J. D. 93

AZOUZ, W. M., PARKE, D. V. & WILLIAMS, R. T. The metabolism of dichlorobenzenes xii

BACH, S. J. & WHITEHOUSE, D. B. Purification and properties of arginase xxxi

BACON, J. S. D. The oligosaccharides produced by the action of yeast invertase preparations on sucrose 320

BARRITT, D. W. Electrophoretic separation of plasma lipoproteins xxxv

BARTLEY, W. & DAVIES, R. E. Active transport of ions by sub-cellular particles 37

BEYER, F. G. *see* KIRK, R. L. 440

BIGWOOD, E. J. *see* SCHRAM, E. 33

BILLETT, F. The β-glucuronidase of the Roman snail (*Helix pomatia*) 159

BILLING, B. H. *see* COLE, P. G. 514

BIRD, R. & HOPKINS, R. H. β-Amylolysis: union of enzyme and substrate 162

BLAU, K. & WALEY, S. G. Chymotrypsin-catalysed transpeptidations 538

BLOCH-FRANKENTHAL, L. The role of magnesium in the hydrolysis of sodium pyrophosphate by inorganic pyrophosphatase 87

BONETTI, E. & DENT, C. E. The determination of the optical configuration of naturally occurring amino acids using specific enzymes and paper chromatography 77

BOWCOTT, J. E. L. *see* HOLT, P. F. 471

BRACKEN, A., POCKER, A. & RAISTRICK, H. Studies in the biochemistry of micro-organisms. 93. Cyclopenin, a nitrogen-containing metabolic product of *Penicillium cyclopium* Westling 587

BRADLEY, J. E. S., HOLLOWAY, R. C. & MCFARLANE, A. S. Assay of ^{14}C in the gas phase as carbon dioxide. *Addendum to* Rate of elimination of homologous globulins (including antibody) from the circulation (Humphrey, J. H. & McFarlane, A. S.) 192

BROWN, E. G., GOODWIN, T. W. & PENDLINGTON, S. Further observations on the biosynthesis of riboflavin by *Eremothecium ashbyii* xxvii

BROWNIE, A. C. & GRANT, J. K. The *in vitro* enzymic hydroxylation of steroid hormones. 1. Factors influencing the enzymic 11 β-hydroxylation of 11-deoxycorticosterone 255

BUTLER, J. A. V., DAVISON, P. F. & SHOOTER, K. V. The characterization of histones from calf-thymus nucleoprotein xxiv

CASPARY, E. A. Physico-chemical examination of human blood-group B substances. *Addendum to* Studies in immunochemistry. 14. The isolation and properties of substances of human origin possessing blood-group B specificity (Gibbons, R. A. & Morgan, W. T. J.) 295

CHAPPELL, J. B. & PERRY, S. V. Creatine phosphokinase: assay and application for the micro-determination of the adenine nucleotides 421

CHARI, A. & WERTHEIMER, E. The effect of ketone bodies on the carbohydrate metabolism of rat diaphragm 443

CIARANFI, E. & FONNESU, A. Time-course of injected acetate in normal and depancreatized dogs 171

COHEN, G. N. *see* AMOS, H. 338

COLE, P. G., LATHE, G. H. & BILLING, B. H. Separation of the bile pigments of serum, bile and urine 514

CONWAY, E. J. & MOORE, P. T. A sodium-yeast and some of its properties 523

COOK, E. S. *see* LEVY, G. B. 50

COOKE, N. J. *see* HANSEN, R. P. 297

COOKSON, G. H. & RIMINGTON, C. Porphobilinogen 476

CORNER, E. D. S. & YOUNG, L. The metabolism of naphthalene in different animal species xxvii

COUPER, A., ELEY, D. D. & HAYWARD, A. The activation of hydrogen by bacteria xxxv

CROOK, E. M. & EL-MARSAFY, M. K. Association of carotene with serum proteins viii

CROOK, E. M., EL-MARSAFY, M. K. & SHOOTER, E. M. Factors involved in the formation of the β-anomaly during the electrophoresis of human serum proteins vii

CROOK, E. M., EL-MARSAFY, M. K., SHOOTER, E. M. & WARD, F. B. Fractionating cells and other equipment for the Tiselius electrophoresis apparatus constructed from Perspex xvi

CROOK, E. M. & RABIN, B. R. Colorimetric determination of dipeptide hydrolysis viii

CROOK, E. M. *see also* SWOBODA, P. A. T. ix

CUMMINS, C. S. & HARRIS, H. Carbohydrate and amino acid constituents of the cell walls of *Corynebacterium diphtheriae* xxxii

DAGLEY, S. Dissimilation of citrate by *Escherichia coli* xx

DAGLEY, S. Permeability and 'citridesmolase' activity of *Aerobacter aerogenes* xix

DAVIES, R. E. *see* BARTLEY, W. 37

DAVISON, P. F. *see* BUTLER, J. A. V. xxiv

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Acetate, effect of, on glycogen synthesis and glucose utilization in isolated rat diaphragm (Garner, R. J. & Roberts, R.) xxix

Acetate, metabolic conversions of, by rabbit-kidney tissue dispersions (Dawson, J. & Hullin, R. P.) 180

Acetic acid, injection of, and blood ketone bodies in normal and depancreatized dogs (Ciaranfi, E. & Fonnesu, A.) 171

Acetic acid, metabolism of, by normal and depancreatized dogs (Ciaranfi, E. & Fonnesu, A.) 171

Acetoin, conversion of, to butane-2:3-diol in decerebrated cat (Dawson, J. & Hullin, R. P.) 177

Acetoin, formation of, from pyruvate in decerebrated cat (Dawson, J. & Hullin, R. P.) 177

Acetoin, metabolic conversions of, by rabbit-kidney tissue dispersions (Dawson, J. & Hullin, R. P.) 180

Acetylcholine of isolated cerebral cortex slices, electrical pulses and (Rowsell, E. V.) 666

Acids, aromatic, glycine conjugation of in locusts (Friedler, L. & Smith, J. N.) 396

Acids, fatty *see* Fatty acids

Acids of crocodile fat (Gunstone, F. D. & Russell, W. C.) 462

Acids of ostrich fat (Gunstone, F. D. & Russell, W. C.) 459

Active transport of ions by sub-cellular particles (Bartley, W. & Davies, R. E.) 37

Adenine nucleotides, micro-determination of, creatine phosphokinase assay for (Chappell, J. B. & Perry, S. V.) 421

Adenosine phosphate compounds of rat tissues, effect of 3:5-dinitro-*ortho*-cresol on (Parker, V. H.) 381

Adenosinetriphosphatase in epithelium of small intestine in normal and adrenalectomized rats (Lüthy, E. & Verzár, F.) 316

Adrenal cortex, enzymic 11β-hydroxylation of 11-deoxycorticosterone in homogenates (Brownie, A. C. & Grant, J. K.) 255

Adrenal medulla, cholinesterase activity of, in microsome fractionation (Hagen, P.) xxxiv

Adrenalectomized rats, effect of sodium salicylate on liver glycogen and blood glucose of (Smith, M. J. H.) 349

Aerobacter aerogenes, permeability and 'citridesmolase' activity of (Dagley, S.) xix

Aerobic phosphorylation in mammary gland and kidney homogenates, effect of *p*-nitrophenol and arsenate on (Terner, C.) xx

Alcohols derived from pilchard oil (Silk, M. H., Sephton, H. H. & Hahn, H. H.) 574

Alkylbenzenes, biological reduction of ketones derived from (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74

Alkylbenzenes, detoxication of (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74

Amino acid composition of insect viruses and their characteristic inclusion-body proteins (Wellington, E. F.) 334

Amino acid constituents of cell walls of *Corynebacterium diphtheriae* (Cummins, C. S. & Harris, H.) xxxii

Amino acid, free, in rat brain (Ansell, G. B. & Richter, D.) 70

D-Amino acid oxidase, of sheep's kidney; use in amino acid chromatography (Bonetti, E. & Dent, C. E.) 77

L-Amino acid oxidase, of snake venoms; use in determining amino acid configuration (Bonetti, E. & Dent, C. E.) 77

Amino acid utilization in bacterial growth (Amos, H. & Cohen, G. N.) 338

Amino acids, basic, separations of, by ionophoresis in filter paper (Harris, H. & Warren, F. L.) xxxii

Amino acids, detection of, in hydrolysates of human blood-group B substances (Gibbons, R. A. & Morgan, W. T. J.) 283

Amino acids, determination of configuration using oxidases (Bonetti, E. & Dent, C. E.) 77

Amino acids, excretion of, in cystinurics (Harris, H., Mittwoch, U., Robson, E. B. & Warren, F. L.) xxxiii

β-Amino*iso*butyric acid, inhibitory effect of, on growth of yeast (Lindan, R.) xxxi

β-Amylase, complex formation with starch polysaccharides (Bird, R. & Hopkins, R. H.) 162

Anaesthesia, effect on free amino acid in rat brain (Ansell, G. B. & Richter, D.) 70

Anserine in skeletal muscle of codling, enzymic cleavage of (Jones, N. R.) xxiv

Anthraquinones, polyhydroxy, from *Penicillium islandicum* (Howard, B. H. & Raistrick, H.) 212

Anthrone, estimation of carbohydrates in plant extracts by (Yemm, E. W. & Willis, A. J.) 508

Anthrone, use in determination of glycogen (Vies, J. van der) 410

Antibacterial activity of erythroskyrine against *Staphylococcus* species (Howard, B. H. & Raistrick, H.) 212

Antibody globulin, rate of elimination of, from circulation (Humphrey, J. H. & McFarlane, A. S.) 186

Antibody, homologous, fate of, in rabbit (Humphrey, J. H. & McFarlane, A. S.) 195

Arginase, purification and properties of (Bach, S. J. & Whitehouse, D. B.) xxxi

Aromatic acids, glycine conjugation in lqcusts (Friedler, L. & Smith, J. N.) 396

Arsenate, effect of, on aerobic phosphorylation in mammary gland and kidney homogenates (Terner, C.) xx

Arteries, human, a histochemical and chromatographic study of lipid distribution in (Henderson, A. E. & MacDougall, J. D. B.) xxi

Arylsulphatases of mammalian liver (Dodgson, K. S., Spencer, B. & Thomas, J.) xxi

Astaxanthin synthesis in *Haematococcus pluvialis* (Goodwin, T. W. & Jamikorn, M.) 376

8-Azapurines, interconversions between (Matthews, R. E. F. & Smith, J. D.) vi

Azide, effect on respiration of *Zygorhyncus moelleri* (Moses, V.) 547

Bacteria, respiration rate of, as a function of oxygen concentration (Longmuir, I. S.) 81

Barbiturates, effect of, on porphyrin metabolism of rabbits (Goldberg, A.) 55

Barium meal, effect of salicylate on passage of, in rat (Smith, M. J. H.) vii

§Bile pigments, chemical pathology of (Gray, C. H.) iii; (Lathe, G. H.) ii

Bile pigments of serum, bile and urine, separation of (Cole, P. G., Lathe, G. H. & Billing, B. H.) 514

§Bile pigments, plasma (Lathe, G. H.) ii
Bile salts, comparative studies of (Haslewood, G. A. D. & Sjövall, J.) 126
Bile salts, examination of, by paper chromatography (Haslewood, G. A. D. & Sjövall, J.) 126
Bilirubin in jaundice (Cole, P. G., Lathe, G. H. & Billing, B. H.) 514
§Bilirubinoid pigments of urine and faeces and their relation to haem pigment metabolism (Gray, C. H.) iii
Birds, conjugated bile acids of (Haslewood, G. A. D. & Sjövall, J.) 126
Blood-group B substances, human, immunological properties of (Gibbons, R. A. & Morgan, W. T. J.) 283
Blood-group B substances, human, physico-chemical examination of (Caspary, E. A.) 295
Blood-group B substances of human origin, isolation of (Gibbon, R. A. & Morgan, W. T. J.) 283
Bone, mammalian compact, organic constituents of (Eastoe, J. E. & Eastoe, B.) 453
Bone, rabbit, phosphatase activities of (Perkins, H. R.) xv
Bones, human foetal skull, analysis of (Macdonald, I.) 437
Brain, rat, free amino acid in (Ansell, G. B. & Richter, D.) 70
Brain slices, ammonia and acetylcholine of, electrical pulses and (Rowsell, E. V.) 666
Brain slices, respiration without aqueous phase, and in non-aqueous media (Rodnight, R. & McIlwain, H.) 649
Brain tissues, action of ergot derivatives, mescaline and dibenamine on (Lewis, J. L. & McIlwain, H.) 680
Butane-2:3-diol, formation of, from glucose in decerebrated cat (Dawson, J. & Hullin, R. P.) 177
Butane-2:3-diol metabolism in rabbit-kidney tissue dispersions (Dawson, J. & Hullin, R. P.) 180
Butterfat, branched-chain fatty acids of (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 297
*iso*Butyric acid, metabolism of, by rumen epithelium (Annison, E. F. & Pennington, R. J.) 685

Cadmium ions in aqueous solution, peptide complexes with (Perkins, D. J.) 702
Cadus callarias see Codling
Calf-thymus nucleoprotein, characterization of histones from (Butler, J. A. V., Davison, P. F. & Shooter, K. V.) xxiv
Canthaxanthin from a colour mutant of *Corynebacterium michiganense* (Saperstein, S. & Starr, M. P.) 273
Canthaxanthin, suggested structure for (Saperstein, S. & Starr, M. P.) 273
Capsular polysaccharide from an amylolytic sheep rumen streptococcus (Hobson, P. N. & MacPherson, M. J.) 145
Capsular polysaccharide from rumen streptococcus, physico-chemical examination of (Greenwood, C. T.) 151
Capsular viruses of insects, amino acids of (Wellington, E. F.) 334
Carbinols, secondary, glucuronides of (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74
Carbohydrase activity of seaweed extracts (Duncan, W. A. M., Manners, D. J. & Ross, A. G.) xviii
Carbohydrate constituents of cell walls of *Corynebacterium diphtheriae* (Cummins, C. S. & Harris, H.) xxxii
Carbohydrate metabolism of rat diaphragm, effect of ketone bodies on (Chari, A. & Wertheimer, E.) 443
Carbohydrates, estimation of, in plant extracts by anthrone (Yemm, E. W. & Willis, A. J.) 508
Carbon (^{14}C), assay of radioactivity as gaseous carbon dioxide (Bradley, J. E. S., Holloway, R. C. & McFarlane, A. S.) 192
Carbon dioxide, effect of, on metabolism of fatty acids by rumen epithelium (Annison, E. F. & Pennington, R. J.) 685
Carbon dioxide, fixation of, by extracts of plants, into phosphoglyceric and phosphopyruvic acids (Fager, E. W.) 264
Carboxylase synthesis and thiamine concentration in yeast (Trevelyan, W. E. & Harrison, J. S.) 561
Carboxylase, yeast (Trevelyan, W. E. & Harrison, J. S.) 556
Carotene, association of, with serum proteins (Crook, E. M. & El-Marsafy, M. K.) viii
β-Carotene, production of, by *Phycomyces blakesleeanus* (Friend, J. & Goodwin, T. W.) 434
Carotenogenesis in *Phycomyces blakesleeanus* (Friend, J., Goodwin, T. W. & Griffiths, L. A.) xxxiv
Carotenogenesis, studies in (Friend, J. & Goodwin, T. W.) 434; (Goodwin, T. W. & Jamikorn, M.) 376
Carotenoid canthaxanthin, ketonic, isolated from colour mutant of *Corynebacterium michiganense* (Saperstein, S. & Starr, M. P.) 273
§Carotenoids, chemical pathology of (Goodwin, T. W.) iv
Carotenoids in *Haematococcus pluvialis* (Goodwin, T. W. & Jamikorn, M.) 376
Casein, cystine content of (Schram, E., Moore, S. & Bigwood, E. J.) 33
Castle's intrinsic factor, isolation and chemical composition of (Latner, A. L., Merrills, R. J. & Raine, L. C. D. P.) xix
Cell walls of *Corynebacterium diphtheriae*, amino acid and carbohydrate constituents of (Cummins, C. S. & Harris, H.) xxxii
Cerebral cortex slices, creatine phosphate level in (Heald, P. J.) 673
Cerebral cortex slices, isolated, ammonia and acetylcholine of, electrical pulses and (Rowsell, E. V.) 666
Cerebral preparations, cell-free, metabolism of, and electrical pulses (Narayanaswami, A. & McIlwain, H.) 663
Cerebral tissues, separated mammalian, metabolism of, action of ergot derivatives, mescaline and dibenamine on (Lewis, J. L. & McIlwain, H.) 680
§Chemical pathology of animal pigments, symposium i
Chlorophenoxyacetic acid herbicides, photochemical inactivation and microbial metabolism of (Evans, W. C. & Smith, B. S. W.) xxx
Cholinesterase activity of adrenal medulla in microsome fractionation (Hagen, P.) xxxiv
Chromatography, gas-liquid (James, A. T. & Martin, A. J. P.) v
Chromatography, paper, estimation of vitamin D by (Kodicek, E. & Ashby, D. R.) xiii
Chromatography, paper, of vitamin D and other sterols (Kodicek, E. & Ashby, D. R.) xii
Chromatography, paper, use for taxonomic studies of land snails (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Chymotrypsin, inhibition of, by organic phosphorus esters (Kilby, B. A. & Youatt, G.) 303
Citrate, dissimilation of, by *Escherichia coli* (Dagley, S.) xx
Citrate, fluoroacetate and (Judah, J. D. & Rees, K. R.) 374
Citric acid, synthesis of, in fluoroacetate-blocked mammary-gland homogenates, effect of *p*-nitrophenol on (Terner, C.) v
'Citridesmolase' activity of *Aerobacter aerogenes* (Dagley, S.) xix
Citrulline phosphorylase reaction of *Streptococcus lactis*, stoicheiometry of (Korzenovsky, M. & Werkman, C. H.) 343
Cod-liver oil, effect on body fat of pigs (Garton, G. A. & Duncan, W. R. H.) 120
Codling, enzymic cleavage of anserine in skeletal muscle of (Jones, N. R.) xxiv
Coenzyme A dependent reactions in soluble enzyme preparation from rat mammary gland (Popják, G. & Tietz, A.) xiv

Collagen in mammalian compact bone (Eastoe, J. E. & Eastoe, B.) 453
Colorimetric measurement, extending range of (Swoboda, P. A. T. & Crook, E. M.) ix
*Colorimetry, differential, used to extend range of phosphate estimation (Swoboda, P. A. T.) xvi
Congo red, effect of, on enzymes (Wills, E. D.) 109
Contractile properties of isolated myofibril, creatine phosphokinase and (Perry, S. V.) 427
Copper complexes in grass, chromatographic analysis (Mills, C. F.) 603
Copper in grass and swayback (Mills, C. F.) 603
Cortex slices, cerebral, creatine phosphate level in (Heald, P. J.) 673
Cortex slices, isolated cerebral, ammonia and acetylcholine of, electrical pulses and (Rowsell, E. V.) 666
Corticosteroids, effect on adenosinetriphosphatase and hexokinase in adrenalectomized rats (Lüthy, E. & Verzár, F.) 316
Corticosteroids, 17-hydroxylated, sodium borohydride in determination of (Appleby, J. I., Gibson, G., Norymberski, J. K. & Stubbs, R. D.) xiv
Corticosterone, formation of, in adrenocortical homogenates by enzymic 11β-hydroxylation of 11-deoxycorticosterone (Brownie, A. C. & Grant, J. K.) 255
Cortisone, normal and adrenalectomized rats maintained on, effect of salicylate on (Smith, M. J. H.) 349
Corynebacterium diphtheriae, cell walls of, carbohydrate and amino acid constituents of (Cummins, C. S. & Harris, H.) xxxii
Corynebacterium michiganense, colour mutant of, ketonic carotenoid canthaxanthin isolated from (Saperstein, S. & Starr, M. P.) 273
Cozymase synthesis in bacteria, inhibition of, by halogen-substituted nicotinic acids (Hughes, D. E.) 485
Creatine phosphate level in cerebral cortex slices (Heald, P. J.) 673
Creatine phosphokinase, activators and inhibitors of (Ennor, A. H. & Rosenberg, H.) 203
Creatine phosphokinase, and enzymic and contractile properties of isolated myofibril (Perry, S. V.) 427
Creatine phosphokinase, assay of (Chappell, J. B. & Perry, S. V.) 421
Creatine phosphokinase in micro-determination of adenine nucleotides (Chappell, J. B. & Perry, S. V.) 421
Creatine phosphokinase, properties of (Ennor, A. H. & Rosenberg, H.) 203
Crocodile fat, acids of (Gunstone, F. D. & Russell, W. C.) 462
Cyclopenin, a mould metabolic product of *Penicillium cyclopium* Westling (Bracken, A., Pocker, A. & Raistrick, H.) 587
Cysteic acid, chromatographic determination of cystine as (Schram, E., Moore, S. & Bigwood, E. J.) 33
Cystine as cysteic acid, chromatographic determination of (Schram, E., Moore, S. & Bigwood, E. J.) 33
Cystine from mycelium of *Penicillium chrysogenum* (Arnstein, H. R. V. & Grant, P. T.) 360
Cystine in penicillin biosynthesis (Arnstein, H. R. V. & Grant, P. T.) 353, 360
Cystine, [β-^{14}C], [^{15}N], [^{35}S]; synthesis and resolution of optical antipodes (Arnstein, H. R. V. & Grant, P. T.) 360
Cystinurics, excretion of amino acids in (Harris, H., Mittwoch, U., Robson, E. B. & Warren, F. L.) xxxiii

11-Deoxycorticosterone, factors influencing enzymic 11β-hydroxylation of (Brownie, A. C. & Grant, J. K.) 255
Detergents, action on spermatozoa (Koefoed-Johnsen, H. H. & Mann, T.) 406
Detergents, effect of, on enzymes (Wills, E. D.) 109
Detoxication, comparative (Friedler, L. & Smith, J. N.) 396
Detoxication of alkylbenzenes (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74
Diabetes, experimental, effect on acetate metabolism (Ciaranfi, E. & Fonnesu, A.) 171
Diaphragm, isolated rat, glycogen synthesis and glucose utilization in, effect of acetate on (Garner, R. J. & Roberts, R.) xxix
Diaphragm, rat, effect of ketone bodies on carbohydrate metabolism of (Chari, A. & Wertheimer, E.) 443
Dibenamine action on metabolism of separated mammalian cerebral tissues (Lewis, J. L. & McIlwain, H.) 680
Dichlorobenzenes, metabolism of (Azouz, W. M., Parke, D. V. & Williams, R. T.) xii
3:5-Dinitro-*ortho*-cresol, effect of, on phosphocreatine and adenosine phosphate compounds of rat tissues (Parker, V. H.) 381
2:4-Dinitrophenol, effect of, on respiration during nitrogen assimilation in *Torulopsis utilis* (Yemm, E. W. & Folkes, B. F.) 495
Dipeptide hydrolysis, colorimetric determination of (Crook, E. M. & Rabin, B. R.) viii
Dodecyl sulphate, effect of, on enzyme (Wills, E. D.) 109
Dyes, interaction of, with proteins on paper with special reference to paper electrophoresis (Franglen, G. T. & Martin, N. H.) 626

Egg yolk, phospholipids, separation of, on silicic acid (Lea, C. H. & Rhodes, D. N.) xxiii
Eggs, avian, incorporation of zinc into (Tupper, R., Watts, R. W. E. & Wormall, A.) 245
Electrical pulses and ammonia and acetylcholine of isolated cerebral cortex slices (Rowsell, E. V.) 666
Electrical pulses and metabolism of cell-free cerebral preparations (Narayanaswami, A. & McIlwain, H.) 663
Electrical pulses, effect of, on levels of creatine phosphate and inorganic phosphate in brain slices (Heald, P. J.) 673
Electrophoresis of human serum proteins, factors inolved in formation of β-anomaly during (Crook, E. M., El-Marsafy, M. K. & Shooter, E. M.) vii
Electrophoresis on filter paper, estimation of serum proteins by (Hardwicke, J.) 166
Electrophoresis, paper, interaction of dyes with proteins on paper with special reference to (Franglen, G. T. & Martin, N. H.) 626
Electrophoresis, Tiselius, apparatus constructed from Perspex, fractionating cells and other equipment for (Crook, E. M., El-Marsafy, M. K., Shooter, E. M. & Ward, F. B.) xvi
Electrophoretic separation of plasma lipoproteins (Barritt, D. W.) xxxv
Emulsin, hydrolysis of phenyl β-D-glucosides by, influence of structure on (Nath, R. L. & Rydon, H. N.) 1
Enzymes, distribution of, in cell-free yeast extracts (Nossal, P. M.) 62
Enzymes, effect of anionic detergents and related compounds on (Wills, E. D.) 109
Enzymes, intracellular, kinetics of, in yeast (Trevelyan, W. E. & Harrison, J. S.) 556
Eremothecium ashbyii, biosynthesis of riboflavin by (Brown, E. G., Goodwin, T. W. & Pendlington, S.) xxvii
Eremothecium ashbyii, nitrogen metabolism and flavinogenesis in (Goodwin, T. W. & Pendlington, S.) 631
Ergot derivatives, action of on metabolism of separated mammalian cerebral tissues (Lewis, J. L. & McIlwain, H.) 680
Erythroskyrine in *Penicillium islandicum* Sopp (Howard, B. H. & Raistrick, H.) 212
Escherichia coli, citrate dissimilation by (Dagley, S.) xx
Escherichia coli, mutants, threonine-isoleucine relationships in (Amos, H. & Cohen, G. N.) 338
Esterases of rat (Aldridge, W. N.) 692

Fat, crocodile, acids of (Gunstone, F. D. & Russell, W. C.) 462
Fat in diet of pigs, effect on body fat (Garton, G. A. & Duncan, W. R. H.) 120
Fat, milk, contribution of dietary stearic acid to (Duncombe, W. G. & Glascock, R. F.) xi
Fats of ostrich (Gunstone, F. D. & Russell, W. C.) 459
Fats of some Indian fresh-water fishes, fatty acids of (Pathak, S. P., Pande, G. D. & Mathur, S. S.) 449
Fatty acid composition of pilchard oil (Silk, M. H. & Hahn, H. H.) 577
Fatty acids, absorption of, from rumen (Annison, E. F. & Pennington, R. J.) 685
Fatty acids, branched-chain, of butterfat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 297
Fatty acids, highly unsaturated, and alcohols derived from pilchard oil (Silk, M. H., Sephton, H. H. & Hahn, H. H.) 574
Fatty acids in rumen content of sheep (Annison, E. F.) 400
Fatty acids, metabolism of, by rumen epithelium (Annison, E. F. & Pennington, R. J.) 685
Fatty acids of crocodile fat (Gunstone, F. D. & Russell, W. C.) 462
Fatty acids of fats of some Indian fresh-water fishes (Pathak, S. P., Pande, G. D. & Mathur, S. S.) 449
Fatty acids of ostrich fat (Gunstone, F. D. & Russell, W. C.) 459
Fatty acids, short-chain, metabolism of, in sheep (Annison, E. F. & Pennington, R. J.) 685
Feathers, keratin of, properties in solution (Woodin, A. M.) 99
Feathers, oxidation with performic acid (Woodin, A. M.) 99
Ficin, transpeptidations by (Blau, K. & Waley, S. G.) 538
Fish, conjugated bile acids of (Haslewood, G. A. D. & Sjövall, J.) 126
Fish, lipids of (Olley, J. & Lovern, J. A.) 610
Fishes, Indian fresh-water, fatty acids of fats of (Pathak, S. P., Pande, G. D. & Mathur, S. S.) 449
Flavinogenesis in *Eremothecium ashbyii* (Goodwin, T. W. & Pendlington. S.) 631
Flavins, use as acceptor substrates in enzymic transglucosidation reactions (Whitby, L. G.) 390
Fluoroacetate, action of (Judah, J. D. & Rees, K. R.) 374
Fluoroacetate-blocked mammary-gland homogenates, synthesis of citric acid in, effect of *p*-nitrophenol on (Terner, C.) v
Fluoronicotinic acid, inhibition of growth and cozymase synthesis in bacteria by (Hughes, D. E.) 485
Foetal skull bones, human, analysis of (Macdonald, I.) 437
Formic dehydrogenase, need by *Coli-aerogenes* group of bacteria for selenite and molybdate in formation of (Pinsent, J.) 10
Formylkynurenine, formation of, from tryptophan by X-rays (Jayson, G. G., Scholes, G. & Weiss, J.) 386
Fructose transfer from sucrose by mould and yeast sucrase (Edelman, J.) 22

Galactitol dehydrogenase, specificity of (McCorkindale, J. & Edson, N. L.) 518
Globulins, homologous, rate of elimination of, from circulation (Humphrey, J. H. & McFarlane, A. S.) 186
Glucose, blood, effect of salicylate on, in rat (Smith, M. J. H.) vii
Glucose, blood, effect of sodium salicylate on, in normal and adrenalectomized rats (Smith, M. J. H.) 349
Glucose, effect of ammonia on oxidation of, by *Zygorhyncus moelleri* (Moses, V.) 547
Glucose oxidase, mutarotase activity in preparations of (Levy, G. B. & Cook, E. S.) 50
Glucose 3-sulphate, preparation (Dodgson, K. S. & Spencer, B.) 310
Glucose 6-sulphate, preparation (Dodgson, K. S. & Spencer, B.) 310
Glucose utilization in isolated rat diaphragm, effect of acetate on (Garner, R. J. & Roberts, R.) xxix
β-Glucuronidase of *Helix pomatia* (Billett, F.) 159
Glucuronides, formation of, in liver suspensions (Dutton, G. J. & Storey, I. D. E.) 275
Glucuronides of secondary carbinols derived from alkylbenzenes (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74
γ-Glutamyl-[1:2-^{14}C]glycine, synthesis of (Hendler, R. W. & Greenberg, D. M.) 641
γ-Glutamyl peptides in peptide and protein biosynthesis (Hendler, R. W. & Greenberg, D. M.) 641
Glutathione analogues, effects of, on glyoxalase reaction (Kermack, W. O. & Matheson, N. A.) xxii
Glycine, bile acid conjugates of (Haslewood, G. A. D. & Sjövall, J.) 126
Glycine conjugation in locusts, aromatic acids and (Friedler, L. & Smith, J. N.) 396
Glycine from mycelium of *Penicillium chrysogenum* (Arnstein, H. R. V. & Grant, P. T.) 353
Glycine in penicillin biosynthesis (Arnstein, H. R. V. & Grant, P. T.) 353
Glycine incorporation into protein in presence of glutamyl compounds (Hendler, R. W. & Greenberg, D. M.) 641
Glycogen, determination of, in liver (Vies, J. van der) 410
Glycogen, liver, effect of salicylate on, in rat (Smith, M. J. H.) 439, vii
Glycogen synthesis in isolated rat diaphragm, effect of acetate on (Garner, R. J. & Roberts, R.) xxix
Glycosulphatases in molluscs (Dodgson, K. S. & Spencer, B.) 310
Glyoxalase in livers of normal and thiamine-deficient rats (Salem, H. M.) 227
Glyoxalase reaction, effects of glutathione analogues on (Kermack, W. O. & Matheson, N. A.) xxii
Grass, copper complexes in (Mills, C. F.) 603
Growth hormone, anterior pituitary, countercurrent distribution studies on (Pierce, J. G.) 16
Gums, plant, composition, function and biogenesis of (Pridham, J. B.) xxviii

Haddock, lipids of flesh of (Olley, J. & Lovern, J. A.) 610
Haemochromatosis, plasma iron in (Kerr, L. M. H. & Ramsay, W. N. M.) xvii
Haemoglobin in strains of yeast (Keilin, D. & Tissières, A.) xxix
Haemoglobin, reaction of, with *p*-iodophenylhydroxylamine and *p*-iodonitrosobenzene (Jackson, H. & Thompson, R.) 619
Hair, human, cystine content of (Schram, E., Moore, S. & Bigwood, E. J.) 33
Helix aspersa, use of paper chromatography in studying taxonomy of (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Helix pomatia, β-glucuronidase of (Billett, F.) 159
Heptadecylamine interaction with silicic acid (Holt, P. F. & Bowcott, J. E. L.) 471
Herbicides, chlorophenoxyacetic acid, photochemical inactivation and microbial metabolism of (Evans, W. C. & Smith, B. S. W.) xxx
Hevea brasiliensis latex, carbohydrate and mesoinositol in phosphatides of (Smith, R. H.) 140
Hevea brasiliensis latex, phosphatides of (Smith, R. H.) 130, 140
Hexadecatetraenoic acid, isolation and structure of a, from pilchard oil (Silk, M. H. & Hahn, H. H.) 582
Hexokinase in epithelium of small intestine in normal and adrenalectomized rats (Lüthy, E. & Verzár, F.) 316

Hippuric acid formation in adult locusts (Friedler, L. & Smith, J. N.) 396
Histones from calf-thymus nucleoprotein, characterization of (Butler, J. A. V., Davison, P. F. & Shooter, K. V.) xxiv
Horseradish peroxidase, simple preparation of (Kenten, R. H. & Mann, P. J. G.) 347
Hydrogen, activation of, by bacteria (Couper, A., Eley, D. D. & Hayward, A.) xxxv
17-Hydroxylated corticosteroids, sodium borohydride in determination of (Appleby, J. I., Gibson, G., Norymberski, J. K. & Stubbs, R. D.) xiv

L-Iditol dehydrogenase, specificity of (McCorkindale, J. & Edson, N. L.) 518
Inclusion-body proteins, characteristic, amino acid composition of (Wellington, E. F.) 334
Indene derivatives, action of tryptophanase on (Gooder, H. & Happold, F. C.) 369
Indole derivatives, action of tryptophanase on (Gooder, H. & Happold, F. C.) 369
Insect viruses, amino acid composition of, and their characteristic inclusion-body proteins (Wellington, E. F.) 334
Insulin, effect of, on carbohydrate metabolism of rat diaphragm (Chari, A. & Wertheimer, E.) 443
Intrinsic factor, Castle's, isolation and chemical composition of (Latner, A. L., Merrills, R. J. & Raine, L. C. D. P.) xix
Invertase, yeast, action of on sucrose, oligosaccharides produced by (Bacon, J. S. D.) 320
Iodine, radioactive, in studies of reaction between haemoglobin and aromatic nitrogen compounds (Jackson, H. & Thompson, R.) 619
Iodine-staining method for determination of glycogen (Vies, J. van der) 410
p-Iodonitrosobenzene, reaction of haemoglobin and derivatives with (Jackson, H. & Thompson, R.) 619
p-Iodophenylhydroxylamine, reaction of haemoglobin and derivatives with (Jackson, H. & Thompson, R.) 619
Ionophoresis in filter paper, separations of basic amino acids by (Harris, H. & Warren, F. L.) xxxii
Ions, active transport of, by sub-cellular particles (Bartley, W. & Davies, R. E.) 37
Iridoskyrin in *Penicillium islandicum* Sopp (Howard, B. H. & Raistrick, H.) 212
Iron in formic dehydrogenase production by *Escherichia coli* (Pinsent, J.) 10
Iron, plasma, determination of (Ramsay, W. N. M.) xvii
Iron, plasma, in terminal case of haemochromatosis (Kerr, L. M. H. & Ramsay, W. N. M.) xvii
Isoleucine, threonine, relationships in mutants of *Escherichia coli* (Amos, H. & Cohen, G. N.) 338

Jaundice, bile pigments in serum during (Cole, P. G., Lathe, G. H. & Billing, B. H.) 514

Keratin, feather, properties in solution (Woodin, A. M.) 99
Keratin, oxidation with performic acid (Woodin, A. M.) 99
Ketone bodies, effect of, on carbohydrate metabolism of rat diaphragm (Chari, A. & Wertheimer, E.) 443
Ketones, reduction of, to secondary carbinols in rabbit (Smith, J. N., Smithies, R. H. & Williams, R. T.) 74
Kidney homogenates, aerobic phosphorylation in, effect of *p*-nitrophenol and arsenate on (Terner, C.) xx

Lipid distribution in human arteries, histochemical and chromatographic studies of (Henderson, A. E. & MacDougall, J. D. B.) xxi
Lipids of haddock flesh (Olley, J. & Lovern, J. A.) 610
Lipoprotein of milk (Morton, R. K.) 231
Lipoproteins, plasma, electrophoretic separation of (Barritt, D. W.) xxxv
Liquid paraffin as non-aqueous media for study of respiration of brain slices (Rodnight, R. & McIlwain, H.) 649
Littorina littorea, sulphatases in (Dodgson, K. S. & Spencer, B.) 310
Liver, mammalian, arylsulphatases of (Dodgson, K. S., Spencer, B. & Thomas, J.) xxi
Lobster tissues, enzymes of (Kermack, W. O., Lees, H. & Wood, J. D.) xxii
Locusts, adult, hippuric acid formation in (Friedler, L. & Smith, J. N.) 396
Lysine amide, transpeptidations of, catalysed by trypsin (Waley, S. G. & Watson, J.) 529
Lysine peptides, transpeptidations of, catalysed by trypsin (Waley, S. G. & Watson, J.) 529

Magnesium, in hydrolysis of sodium pyrophosphate by inorganic pyrophosphatase (Bloch-Frankenthal, L.) 87
Mammary gland, aerobic phosphorylation in, effect of *p*-nitrophenol and arsenate on (Terner, C.) xx
Mammary-gland homogenates, fluoroacetate-blocked, synthesis of citric acid in, effect of *p*-nitrophenol on (Terner, C.) v
Mammary gland, rat, coenzyme A dependent reactions in soluble enzyme preparation from (Popják, G. & Tietz, A.) xiv
D-Mannitol dehydrogenase, specificity of (McCorkindale, J. & Edson, N. L.) 518
Mannosidase of *Streptomyces griseus* (Hockenhull, D. J. D., Ashton, G. C., Fantes, K. H. & Whitehead, B. K.) 93
Mescaline action on metabolism of separated mammalian cerebral tissues (Lewis, J. L. & McIlwain, H.) 680
Metals in formic dehydrogenase production by *Escherichia coli* (Pinsent, J.) 10
§Methaemoglobin and sulphaemoglobin (Gibson, Q. H.) iii
Methionine, absorption of, by skin of guinea pig (Edwards, L. J.) 542
Methylandrostenediol, effect of, on growth rate and composition of rat (Korner, A.) x
α-Methylbutyric acid in rumen content of sheep (Annison, E. F.) 400
α-Methylbutyric acid, metabolism of, by rumen epithelium (Annison, E. F. & Pennington, R. J.) 685
Methylglyoxal in thiamine-deficient rats (Salem, H. M.) 227
Metmyoglobin, oxidation of myoglobin to, by oxygen (George, P. & Stratmann, C. J.) 568
Microsomal particles, alkaline phosphatases of (Morton, R. K.) 595
Microsome fractionation, cholinesterase activity of adrenal medulla in (Hagen, P.) xxxiv
Microsomes of milk (Morton, R. K.) 231
Milk; enzymes, lipoprotein and microsomes of (Morton, R. K.) 231
Milk fat, contribution of dietary stearic acid to (Duncombe, W. G. & Glascock, R. F.) xi
Mitochondria, active transport of ions by (Bartley, W. & Davies, R. E.) 37
Molluscs, sulphatases in (Dodgson, K. S. & Spencer, B.) 310
Molybdate in formic dehydrogenase production by *Escherichia coli* (Pinsent, J.) 10
Mucopolysaccharide in mammalian compact bone (Eastoe, J. E. & Eastoe, B.) 453
Mutarotase, rotographic study of (Levy, G. B. & Cook, E. S.) 50
Myofibril, isolated, enzymic and contractile properties of, creatine phosphokinase and (Perry, S. V.) 427

Myoglobin, oxidation of, to metmyoglobin by oxygen (George, P. & Stratmann, C. J.) 568

Nain, component acids of body and visceral fats of (Pathak, S. P., Pande, G. D. & Mathur, S. S.) 449
Naphthalene, metabolism of, in different animal species (Corner, E. D. S. & Young, L.) xxvii
Nerve, rabbit, sodium and potassium in, effect of temperature on content and turnover of (McLennan, H. & Harris, E. J.) 329
Nicotinic acids, halogen-substituted, inhibition of growth and cozymase synthesis in bacteria by (Hughes, D. E.) 485
Nitrogen assimilation in *Torulopsis utilis*, respiration regulation during (Yemm, E. W. & Folkes, B. F.) 495
Nitrogen metabolism in *Eremothecium ashbyii* (Goodwin, T. W. & Pendlington, S.) 631
p-Nitrophenol, effect of, on aerobic phosphorylation in mammary gland and kidney homogenates (Terner, C.) xx
p-Nitrophenol, effect of, on synthesis of citric acid in fluoroacetate-blocked mammary-gland homogenates (Terner, C.) v
Nucleic acids, estimation of purines in (McDonald, I. W.) 566
Nucleoprotein, calf-thymus, characterization of histones from (Butler, J. A. V., Davison, P. F. & Shooter, K. V.) xxiv
Nucleotides, adenine, micro-determination of, creatine phosphokinase assay for (Chappell, J. B. & Perry, S. V.) 421

Oils, tissue metabolism in (Rodnight, R. & McIlwain, H.) 649
Oligosaccharides produced by action of yeast invertase on sucrose (Bacon, J. S. D.) 320
Olive oil as non-aqueous media for study of respiration of brain slices (Rodnight, R. & McIlwain, H.) 649
Optical configuration of naturally occurring amino acids, determination of, using specific enzymes and paper chromatography (Bonetti, E. & Dent, C. E.) 77
Ostrich fat, acids of (Gunstone, F. D. & Russell, W. C.) 459
Oxygen concentration, respiration rate of bacteria as a function of (Longmuir, I. S.) 81
Oxygen solubility in non-aqueous media, determination of (Rodnight, R. & McIlwain, H.) 649
Oxymyoglobin, stability of (George, P. & Stratmann, C. J.) 568

Pantothenic acid and β-amino*iso*butyric acid, effect on yeast growth (Lindan, R.) xxxi
Papain, transpeptidations by (Blau, K. & Waley, S. G.) 538
Paper chromatography, use for taxonomic studies of land snails (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Paper, filter, ionophoresis in, separations of basic amino acids by (Harris, H. & Warren, F. L.) xxxii
§Pathology, chemical, of animal pigments, symposium i
Penicillin biosynthesis from amino acids (Arnstein, H. R. V. & Grant, P. T.) 353
Penicillin biosynthesis from cystine (Arnstein, H. R. V. & Grant, P. T.) 360
Penicillium chrysogenum, cystine and serine from mycelium of (Arnstein, H. R. V. & Grant, P. T.) 360
Penicillium chrysogenum, glycine and serine from mycelium of (Arnstein, H. R. V. & Grant, P. T.) 353
Penicillium cyclopium Westling, isolation of cyclopenin and viridicatin from (Bracken, A., Pocker, A. & Raistrick, H.) 587
Penicillium islandicum Sopp, iridoskyrin, rubroskyrin and erythroskyrine of (Howard, B. H. & Raistrick, H.) 212
Peptide biosynthesis, γ-glutamyl transpeptidation in (Hendler, R. W. & Greenberg, D. M.) 641
Peptide complexes with zinc and cadmium ions in aqueous solution (Perkins, D. J.) 702
Peptides, hydrolysis of, by trypsin (Waley, S. G. & Watson, J.) 529
Peptides, isolation and identification of (Edmunds, H. & Reith, W. S.) xviii
Peptides, synthesis of (Waley, S. G. & Watson, J.) 529
Periwinkle, sulphatases in (Dodgson, K. S. & Spencer, B.) 310
Permeability of *Aerobacter aerogenes* (Dagley, S.) xix
Peroxidase, horseradish, simple preparation of (Kenten, R. H. & Mann, P. J. G.) 347
Phenol, determination of, in enzymic decomposition of α-phenylmannoside (Hockenhull, D. J. D., Ashton, G. C., Fantes, K. H. & Whitehead, B. K.) 93
Phenols, use of, in prothrombin assay (Fantl, P.) 416
Phenyl β-D-glucosides, hydrolysis by emulsin, influence of structure on (Nath, R. L. & Rydon, H. N.) 1
Phenylalanine amide, hydrolysis of, catalysed by chymotrypsin (Blau, K. & Waley, S. G.) 538
Phenylalanine incorporation into protein in presence of glutamyl compounds (Hendler, R. W. & Greenberg, D. M.) 641
Phenylalanine peptides, hydrolysis of, catalysed by chymotrypsin (Blau, K. & Waley, S. G.) 538
Phosphatase activities of rabbit bone (Perkins, H. R.) xv
Phosphatase, alkaline, of animal tissues, assay and purification of (Morton, R. K.) 595
*Phosphate estimation, differential colorimetry applied to extend range of (Swoboda, P. A. T.) xvi
Phosphatides of *Hevea brasiliensis* latex (Smith, R. H.) 130, 140
Phosphocreatine of rat tissues, effect of 3:5-dinitro-*ortho*-cresol on (Parker, V. H.) 381
Phosphoglyceric acid, formation of, by carbon dioxide fixation in plant extracts (Fager, E. W.) 264
Phosphoglycerides, naturally occurring, structure of, and action of phospholipase *C* (Long, C. & Maguire, M. F.) 223
Phosphokinase, creatine, and enzymic and contractile properties of isolated myofibril (Perry, S. V.) 427
Phosphokinase, creatine, assay of (Chappell, J. B. & Perry, S. V.) 421
Phosphokinase, creatine, in micro-determination of adenine nucleotides (Chappell, J. B. & Perry, S. V.) 421
Phospholipase *C*, action of, and structure of naturally occurring phosphoglycerides (Long, C. & Maguire, M. F.) 223
Phospholipid metabolism in brain and liver (Dawson, R. M. C.) xv
Phospholipids, brain, labelling of, with radioactive phosphorus (Dawson, R. M. C.) 237
Phospholipids of egg yolk, separation of, on silicic acid (Lea, C. H. & Rhodes, D. N.) xxiii
Phosphopyruvic acid, formation of, by carbon dioxide fixation in plant extracts (Fager, E. W.) 264
Phosphorus distribution in chicken nerve (Webster, G. R.) 153
Phosphorus esters, organic, inhibition of trypsin and chymotrypsin by (Kilby, B. A. & Youatt, G.) 303
^{32}Phosphorus incorporation in chicken nerve (Webster, G. R.) 153
Phosphorus, turnover in brain (Dawson, R. M. C.) 237
Phosphorylation, aerobic, in mammary gland and kidney homogenates, effect of *p*-nitrophenol and arsenate on (Terner, C.) xx
Phycomyces blakesleeanus, carboxylic acids and carotenogenesis in (Friend, J., Goodwin, T. W. & Griffiths, L. A.) xxxiv

Phycomyces blakesleeanus, carotenogenesis by, effect of temperature and thiamine concentration on (Friend, J. & Goodwin, T. W.) 434
§Pigments, animal, chemical pathology of, symposium i
Pigs, dietary fat, effect on body fat (Garton, G. A. & Duncan, W. R. H.) 120
Pilchard oil, alcohols and unsaturated fatty acids from (Silk, M. H., Sephton, H. H. & Hahn, H. H.) 574
Pilchard oil, fatty acid composition of (Silk, M. H. & Hahn, H. H.) 577
Pilchard oil, isolation and structure of a hexadecatetraenoic acid from (Silk, M. H. & Hahn, H. H.) 582
Pituitary growth hormone, anterior, countercurrent distribution studies on (Pierce, J. G.) 16
Plant extracts, phosphoglyceric acid formation by carbon dioxide fixation in (Fager, E. W.) 264
Plant gums, composition, function and biogenesis of (Pridham, J. B.) xxviii
Plasma iron, determination of (Ramsay, W. N. M.) xvii
Plasma iron in terminal case of haemochromatosis (Kerr, L. M. H. & Ramsay, W. N. M.) xvii
Plasma lipoproteins, electrophoretic separation of (Barritt, D. W.) xxxv
Plasma proteins, metabolism of (Humphrey, J. H. & McFarlane, A. S.) 186, 195
Plum gums, composition, function and biogenesis of (Pridham, J. B.) xxviii
Polarographic method for measurement of oxygen concentration (Longmuir, I. S.) 81
Polyhedral proteins, of insect virus diseases, amino acids of (Wellington, E. F.) 334
Polyhedral viruses, of insects, amino acids of (Wellington, E. F.) 334
Polylysine interaction with silicic acid (Holt, P. F. & Bowcott, J. E. L.) 471
Polyol dehydrogenase, rat-liver, specificity of (McCorkindale, J. & Edson, N. L.) 518
Polysaccharide, capsular, from an amylolytic sheep rumen streptococcus (Hobson, P. N. & MacPherson, M. J.) 145
Polysaccharide, capsular, from rumen streptococcus, physico-chemical examination of (Greenwood, C. T.) 151
Polysaccharides from culture fluid of an amylolytic sheep rumen streptococcus (Hobson, P. N. & MacPherson, M. J.) 145
Porphobilinogen (Cookson, G. H. & Rimington, C.) 476
§Porphyria, acute, pathology of. Experimental porphyria in animals (Goldberg, A.) ii
§Porphyrin excretion, patterns of (Falk, J. E.) i
Porphyrin metabolism of rabbits, effect of barbiturates on (Goldberg, A.) 55
Porphyrins, formation and separation of (Cookson, G. H. & Rimington, C.) 476
§Porphyrins, normal and pathological metabolism of (Muir, H. M.) i
Potassium chloride, effect of, on levels of creatine phosphate and inorganic phosphate in brain slices (Heald, P. J.) 673
Potassium in rabbit nerve, effect of temperature on content and turnover of (McLennan, H. & Harris, E. J.) 329
Proteins, cystine content of (Schram, E., Moore, S. & Bigwood, E. J.) 33
Proteins, human serum, electrophoresis of, factors involved in formation of β-anomaly during (Crook, E. M., El-Marsafy, M. K. & Shooter, E. M.) vii
Proteins, interaction of dyes with, on paper, with special reference to paper electrophoresis (Franglen, G. T. & Martin, N. H.) 626
Proteins interaction with silicic acid (Holt, P. F. & Bowcott, J. E. L.) 471
Proteins of mammalian compact bone (Eastoe, J. E. & Eastoe, B.) 453
Proteins, serum, association of carotene with (Crook, E. M. & El-Marsafy, M. K.) viii
Proteins, serum, estimation of by electrophoresis on filter paper (Hardwicke, J.) 166
Prothrombin assay, use of substances depressing antithrombin activity in (Fantl, P.) 416
Pteridines, transformation of purines into (Albert, A.) x
Purines, estimation in plant tissues and ruminant digesta (McDonald, I. W.) 566
Purines, solubility of silver compounds of (McDonald, I. W.) 566
Purines, transformation of, into pteridines (Albert, A.) x
Pyrophosphatase of erythrocytes, role of magnesium (Bloch-Frankenthal, L.) 87
Pyruvate, intracellular level of, during yeast fermentation (Trevelyan, W. E. & Harrison, J. S.) 556
Pyruvate, metabolic conversions of, by rabbit-kidney tissue dispersions (Dawson, J. & Hullin, R. P.) 180

Quinoline, metabolism of (Smith, J. N. & Williams, R. T.) xi

Respiration rate of bacteria as a function of oxygen concentration (Longmuir, I. S.) 81
Riboflavin, biosynthesis of (Goodwin, T. W. & Pendlington, S.) 631
Riboflavin, biosynthesis of, by *Eremothecium ashbyii* (Brown, E. G., Goodwin, T. W. & Pendlington, S.) xxvii
Riboflavinyl glucoside, enzymic hydrolysis of (Whitby, L. G.) 390
Rohu, component acids of body and visceral fats of (Pathak, S. P., Pande, G. D. & Mathur, S. S.) 449
Rotographic study of mutarotase (Levy, G. B. & Cook, E. S.) 50
Rubroskyrin in *Penicillium islandicum* Sopp (Howard, B. H. & Raistrick, H.) 212
Rumen, sheep, volatile fatty acids in (Annison, E. F.) 400
Rumen streptococcus, capsular polysaccharide from (Hobson, P. N. & MacPherson, M. J.) 145
Rumen streptococcus, physico-chemical examination of capsular polysaccharide from (Greenwood, C. T.) 151

Saccharomyces cerevisiae see Yeast
Salicylate, effect of, on liver glycogen, blood glucose and passage of a barium meal in rat (Smith, M. J. H.) vii
Salicylate, effect of, on liver glycogen in rat (Smith, M. J. H.) 349
Salicylate, rapid determination of, in biological fluids (Trinder, P.) 301
Seaweed extracts, carbohydrase activity of (Duncan, W. A. M., Manners, D. J. & Ross, A. G.) xviii
Selenite in formic dehydrogenase production by *Escherichia coli* (Pinsent, J.) 10
Semen, metabolism of (Koefoed-Johnsen, H. H. & Mann, T.) 406
Serine from mycelium of *Penicillium chrysogenum* (Arnstein, H. R. V. & Grant, P. T.) 353, 360
Serine in penicillin biosynthesis (Arnstein, H. R. V. & Grant, P. T. 353
Serum albumin, bovine, cystine content of (Schram, E., Moore, S. & Bigwood, E. J.) 33
Serum proteins, association of carotene with (Crook, E. M. & El-Marsafy, M. K.) viii
Serum proteins, estimation of, by electrophoresis on filter paper (Hardwicke, J.) 166
Serum proteins, human, electrophoresis of, factors involved in formation of β-anomaly during (Crook, E. M., El-Marsafy, M. K. & Shooter, E. M.) vii
Serum, separation of bile pigments of (Cole, P. G., Lathe, G. H. & Billing, B. H.) 514
Silicic acid interaction with heptadecylamine, polylysine and proteins (Holt, P. F. & Bowcott, J. E. L.) 471

Silicone as non-aqueous media for study of respiration of brain slices (Rodnight, R. & McIlwain, H.) 649
Skin of guinea pig, absorption of methionine by (Edwards, L. J.) 542
Skull bones, human foetal, analysis of (Macdonald, I.) 437
Snail *see Helix pomatia*
Snails, land, use of paper chromatography for taxonomic studies of (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Sodium borohydride in determination of 17-hydroxylated corticosteroids (Appleby, J. I., Gibson, G., Norymberski, J. K. & Stubbs, R. D.) xiv
Sodium in rabbit nerve, effect of temperature on content and turnover of (McLennan, H. & Harris, E. J.) 329
Sodium-yeast and some properties (Conway, E. J. & Moore, P. T.) 523
Spermatozoa, metabolism of (Koefoed-Johnsen, H. H. & Mann, T.) 406
Staphylococcus species, antibacterial activity of erythroskyrine against (Howard, B. H. & Raistrick, H.) 212
Stearic acid, dietary, contribution of, to milk fat (Duncombe, W. G. & Glascock, R. F.) xi
Steroid hormones, *in vitro* enzymic hydroxylation of (Brownie, A. C. & Grant, J. K.) 255
Sterols, paper chromatography of (Kodicek, E. & Ashby, D. R.) xii
Stoicheiometry of citrulline phosphorylase reaction of *Streptococcus lactis* (Korzenovsky, M. & Werkman, C. H.) 343
Streptococcus, capsular polysaccharide from (Hobson, P. N. & MacPherson, M. J.) 145
Streptococcus lactis, stoicheiometry of citrulline phosphorylase reaction of (Korzenovsky, M. & Werkman, C. H.) 343
Streptococcus, rumen, physico-chemical examination of capsular polysaccharide from (Greenwood, C. T.) 151
Streptomyces griseus, α-phenylmannosidase of (Hockenhull, D. J. D., Ashton, G. C., Fantes, K. H. & Whitehead, B. K.) 93
Succinate, oxidation of, by spermatozoa (Koefoed-Johnsen, H. H. & Mann, T.) 406
Sucrase, mould and yeast, transfer reactions catalysed by (Edelman, J.) 22
Sucrose, action of yeast invertase on, oligosaccharides produced by (Bacon, J. S. D.) 320
Sugars, detection of, in hydrolysates of bacterial polysaccharides (Hobson, P. N. & MacPherson, M. J.) 145
Sugars, enzyme-catalysed mutarotation of (Levy, G. B. & Cook, E. S.) 50
Sugars, isolation of, from human blood-group B substances (Gibbons, R. A. & Morgan, W. T. J.) 283
Sugars, reaction and determination with anthrone (Yemm, E. W. & Willis, A. J.) 508
§Sulphaemoglobin and methaemoglobin (Gibson, Q. H.) iii
Sulphatase of ox liver (Roy, A. B.) 465
Sulphatases in molluscs (Dodgson, K. S. & Spencer, B.) 310
Suramin, effect of, on enzymes (Wills, E. D.) 109
Surface-active substances, action on sperm (Koefoed-Johnsen, H. H. & Mann, T.) 406
Swayback, copper complexes in grass and (Mills, C. F.) 603

Taurine, bile acid conjugates of (Haslewood, G. A. D. & Sjövall, J.) 126
Taurocholate, effect of, on enzymes (Wills, E. D.) 109
Taxonomy, use of paper chromatography in (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Temperature effect on carotenogenesis by *Phycomyces blakesleeanus* (Friend, J. & Goodwin, T. W.) 434
Theba pisana, use of paper chromatography in studying taxonomy of (Kirk, R. L., Main, A. R. & Beyer, F. G.) 440
Thiamine concentration effect on carotenogenesis by *Phycomyces blakesleeanus* (Friend, J. & Goodwin, T. W.) 434
Thiamine, effect of, on liver glyoxalase and on methylglyoxal metabolism in rats (Salem, H. M.) 227
Thiamine, effect of, on yeast fermentation (Trevelyan, W. E. & Harrison, J. S.) 561
Threonine-isoleucine relationships in mutants of *Escherichia coli* (Amos, H. & Cohen, G. N.) 338
Thrombin-fibrinogen reaction, effect of phenols on (Fantl, P.) 416
Thymus nucleoprotein, calf, characterization of histones from (Butler, J. A. V., Davison, P. F. & Shooter, K. V.) xxiv
Tissue metabolism, techniques in (Rodnight, R. & McIlwain, H.) 649
Torulopsis utilis, respiration during nitrogen assimilation in (Yemm, E. W. & Folkes, B. F.) 495
Transglucosidation reactions with flavins (Whitby, L. G.) 390
Transpeptidation, γ-glutamyl, in peptide biosynthesis (Hendler, R. W. & Greenberg, D. M.) 641
Transpeptidations catalysed by chymotrypsin (Blau, K. & Waley, S. G.) 538
Transpeptidations catalysed by trypsin (Waley, S. G. & Watson, J.) 529
Tri-*ortho*-cresyl phosphate, effect on phosphorus compounds in spinal cord and sciatic nerve of chicken (Webster, G. R.) 153
Trypsin, esterase activity of (Kilby, B. A. & Youatt, G.) 303
Trypsin, inhibition of, by organic phosphorus esters (Kilby, B. A. & Youatt, G.) 303
Tryptophan, action of X-rays on (Jayson, G. G., Scholes, G. & Weiss, J.) 386
Tryptophan-tryptophanase reaction. Nature of enzyme-coenzyme-substrate complex (Gooder, H. & Happold, F. C.) 369
Tungstate in formic dehydrogenase production by *Escherichia coli* (Pinsent, J.) 10
Tyrosine amide, hydrolysis of, catalysed by chymotrypsin (Blau, K. & Waley, S. G.) 538
Tyrosine peptides, hydrolysis of, catalysed by chymotrypsin (Blau, K. & Waley, S. G.) 538

Uridine compounds in glucuronic acid metabolism (Dutton, G. J. & Storey, I. D. E.) 275
Urine, separation of bile pigments of (Cole, P. G., Lathe, G. H. & Billing, B. H.) 514

Valeric acids, metabolism of, by rumen epithelium (Annison, E. F. & Pennington, R. J.) 685
Valine in penicillin biosynthesis (Arnstein, H. R. V. & Grant, P. T.) 353
Valine incorporation into protein in presence of glutamyl compounds (Hendler, R. W. & Greenberg, D. M.) 641
Vertebrates, conjugated bile acids of (Haslewood, G. A. D. & Sjövall, J.) 126
Viridicatin, a mould metabolic product of *Penicillium cyclopium* Westling (Bracken, A., Pocker, A. & Raistrick, H.) 587
Viridicatin, synthesis of (Bracken, A., Pocker, A. & Raistrick, H.) 587
Vitamin D, estimation of, by paper chromatography (Kodicek, E. & Ashby, D. R.) xiii
Vitamin D, paper chromatography of (Kodicek, E. & Ashby, D. R.) xii

X-rays on tryptophan in aqueous solution, formation of formylkynurenine by action of (Jayson, G. G., Scholes, G. & Weiss, J.) 386

Yeast extracts, cell-free, distribution of enzymes in (Nossal, P. M.) 62
Yeast fermentation, effect of thiamine on (Trevelyan, W. E. & Harrison, J. S.) 561
Yeast fermentation, intracellular level of pyruvate during (Trevelyan, W. E. & Harrison, J. S.) 556
Yeast, haemoglobin in (Keilin, D. & Tissières, A.) xxix
Yeast, inhibitory effect of β-amino*iso*butyric acid on growth of (Lindan, R.) xxxi
Yeast, sodium, and some properties (Conway, E. J. & Moore, P. T.) 523
Yeast *see also Torulopsis utilis*

Zinc in lipovitellin and egg yolk (Tupper, R., Watts, R. W. E. & Wormall, A.) 245
Zinc (^{65}Zn), incorporation of, into avian eggs (Tupper, R., Watts, R. W. E. & Wormall, A.) 245
Zinc ions in aqueous solution, peptide complexes with (Perkins, D. J.) 702
Zygorhyncus moelleri, ammonia and oxidation of glucose by starved (Moses, V.) 547
Zygorhyncus moelleri, respiration of (Moses, V.) 547
